ADVANCED PHOTOGRAPHY-LOW LIGHT PHOTOGRAPHY CERTIFICATION

Enhance your photography skills by understanding low light photography. This certificate brings hands on practice in various conditions of low ambient light. Don't get caught in the dark when you can't use a flash.

Topics include:

- Understanding how low light affects exposure, shutter speed, color temperature, and more
- Preparing for a low-light shoot
- Shooting in dimly lit rooms
- Using the flash indoors
- Shooting in the shade
- Taking flash portraits at night
- Controlling flash color temperature
- Focusing in low light
- Light painting
- Manipulating long shutter speeds
- Correcting white balance
- Brightening shadows
- Sharpening and noise reduction

The 20 hour certificate consists of 5 courses and can be completed in one semester. Courses are open to students who have completed the Roving Photographer certificate or with permission from instructor. A DSLR or MILC camera is required for use in each class. Students need to have experience using their cameras and have a basic knowledge of manual exposure, manual control of shutter speed and aperture. See on line section notes for specific equipment that may be needed for individual classes.

Students needing the prerequisite may take individual classes if not seeking the full certificate.

- PHOTO401 Exposure Fundamentals-4 hours
- PHOTO402 Shade Photography-4 hours
- PHOTO403 Indoor No Flash Photography-4 hours
- PHOTO404 Golden Hour and Night Photography-6 hours
- PHOTO405 Lightroom Portfolio-2 hours

CYBER SECURITY

NORTHAMPTON COMMUNITY COLLEGE PARTNERING WITH EC-COUNCIL

We have teamed up with the EC-Council to offer you these courses: Certified Network Defender; Certified Ethical Hacker; and Certified Cybersecurity Technician. For more information about our offered certificates and to register, reach out to us at CALinfo@northampton.edu. You will receive more information about the offered course modalities, pricing, and your EC-Council contact.

Certified Network Defender (CND)

This course is a skills-based, lab intensive comprehensive network security certification training program based on the security education framework and work role task analysis presented by the National Infocomm Competency Framework (NICF) as well as a job-task analysis and cybersecurity education framework by the National Initiative of Cybersecurity Education (NICE). The course has also been mapped to global job roles and to the Department of Defense (DoD) job roles for system/network administrators. The program prepares network administrators how to identify what parts of an organization need to be reviewed and tested for security vulnerabilities and how to reduce, prevent, and mitigate risks in the network. CND covers the protect, detect, respond and predict approach to network security.

Certified Ethical Hacker

This course provides an in-depth understanding of ethical hacking phases, various attack vectors, and preventative countermeasures. Learn how hackers think and act to be better positioned to set up your security infrastructure and defend against attacks. By providing an understanding of system vulnerabilities, the course teaches how to protect organizations and strengthen security controls in order to minimize the risk of a malicious attack. Built to incorporate a hands-on environment and systematic process across each ethical hacking domain and methodology, students have the opportunity to work toward proving the required knowledge and skills needed to achieve the CEH credential and perform the job of an ethical hacker.

Certified Cybersecurity Technician

This course will teach students to validate hands-technician-level IT and cybersecurity skills. It is based on an entry-level cybersecurity program engineered by the creators of the Certified Ethical Hacker program to address the global demand for cybersecurity technicians. Students will learn core security skills to pursue and develop their cybersecurity careers as cybersecurity specialists, consultants, network engineers, or IT administrators.
